

DINLine Display

The DINLine Series Modbus Display functions as a pressure and temperature annunciator in Class I Div 2 environments. The unit displays pressure on a 5 digit LED and temperature on a 4 digit LED, and features the industry standard Modbus RTU protocol.

FEATURES

- Class I Div 2 Rated
- Low Power Consumption
- psi, kpa or bar annunciator
- °F or °C annunciator
- 5 Digit Pressure Display
- 4 Digit Temperature Display
- Modbus RTU Communication Protocol

APPLICATIONS

- Wide Operating Temperature Environments
- Battery Powered Systems

SPECIFICATIONS

Operating Temperature	-40 °C to 70 °C (-40 °F to 158 °F)
Current Consumption	20 mA
Supply Voltage	6 to 60 VDC

Part Number

SE-0002-003
