

IROC SYSTEMS CORP. COMPLETES ACQUISITION OF CANADA TECH CORP.

Calgary, AB/November 3, 2005/ IROC Systems Corp. ("IROC" or the "Company") (TSX Venture Exchange: "ISC") is pleased to announce that it has completed the acquisition of all of the issued and outstanding shares of Canada Tech Corp. ("Canada Tech") on terms as previously announced on September 19, 2005. The \$12 million purchase price was paid by way of the issuance of 2,326,452 common shares of IROC at a deemed issuance price of \$2.827 per share and \$5,382,833 cash.

Since 1992 Canada Tech has been a developer, manufacturer and marketer of a wide line of tools and systems that measure pressures and temperatures in the downhole and surface environment of oil and gas wells. Canada Tech's product line includes a complete offering of memory tools, surface readout tools, permanent installation tools, surface loggers, depth systems, gas lift mandrel plug tools and carriers for use at pressure ranges up to 30,000 psi and temperatures up to 200 °C. Canada Tech offers piezo resistive and quartz technology and uses primarily Inconel 718 for housing material, although a variety of materials are also offered to address alternative operating conditions. Canada Tech sales for the year ended August 31, 2005 were approximately \$8 million.

Canada Tech, as a wholly owned subsidiary of the Company, will continue to operate as a separate division of IROC. The existing management of Canada Tech have each entered into employment agreements with Canada Tech and all existing employees will be retained by the Company.

Tom Alford, President and Chief Executive Officer of IROC stated that: "IROC is very excited about the addition of Canada Tech's business and personnel. Canada Tech's business and product line significantly expands IROC's technology based products and services."

Cedric Doerksen, President of Canada Tech stated that: "The acquisition by IROC of our company will provide us with the opportunity to continue with and expand the development of our pressure measurement tools and expand the scope of our market presence."

About IROC Systems Corp.

IROC Systems Corp. is an Alberta based oilfield services company that has provided equipment and personnel in the area of downwind air quality monitoring and safety services to the energy sector since 1982. IROC has developed key technologies to address remote air quality monitoring, designed and deployed new air breathing systems and provides a full line of safety services for drilling, completion, production and plant shut down operations. Additionally, IROC operates service rigs across Central and Southern Alberta through Eagle Well Services Corp., provides premium communication solutions through Oricomm Inc. and is active in the area of environmental reclamation and remediation through Envirocore Ltd. (formerly Canstar Environmental Corp.), each of which are wholly owned subsidiaries of IROC.
