

**IROC SYSTEMS CORP.
APPOINTS A NEW CHIEF FINANCIAL OFFICER**

Calgary, AB / July 4, 2006 / IROC Systems Corp. (“IROC” or the “Company”) (TSX Venture Exchange: “ISC”) announces the appointment of Kevin Howell as Chief Financial Officer. Mr. Howell is coming to IROC after most recently being responsible for all financial reporting activities at an oilfield services trust. Having held his Chartered Accountant designation since 2000, and spending time with a major accounting firm, Mr. Howell has held roles with ever increasing responsibility and diversity in the oilfield services industry.

Mr. Alford commented that “we are very excited about Kevin joining our Company. His enthusiasm combined with his experience in the public company setting, process implementation and his financial reporting background will provide us with a sound administrative base and allow for continued progress.”

Mr. Howell has been granted options to purchase 100,000 common shares at a price of \$2.85 per share. The options may be exercised for a period of five (5) years.

Mr. Alford also announced that Gayle Morriscal, former CFO of the Company has assumed a new position aimed at increasing the efficiency of the Company’s administrative structure. Mr. Alford commented that “Gayle, with over 20 years in the oilfield services industry, will continue to be a valued member of our executive team and she will now focus her efforts on specific projects within the Company created by our significant growth rate.”

About IROC Systems Corp.

IROC Systems Corp. is an Alberta based oilfield services company that has provided equipment and personnel in the area of downwind air quality monitoring and safety services to the energy sector since 1982. IROC has developed key technologies to address remote air quality monitoring, designed and deployed new air breathing systems and provides a full line of safety services for drilling, completion, production and plant shut down operations. Additionally, through the IROC Energy Services Partnership, IROC operates service rigs across Central and Southern Alberta, provides premium communication solutions and is active in the area of environmental reclamation and remediation. Also, through its subsidiary Canada Tech Corp., IROC develops, manufactures and markets a line of tools and systems that measure pressures in the downhole and surface environment of oil and gas wells.
