His extensive background and experience, in the drilling industry, in other oilfield services, and in hydrocarbon exploration and production, have proven invaluable to the Company for more than a decade. Mr. George S. Armoyan and his family represent the second-largest shareholder of Western. He is a seasoned investor and entrepreneur, with significant expertise in real estate, oil and gas and oilfield services. Mr. Armoyan has been well-engaged in the recent transformative transactions at Western.

The full results on all matters voted upon at the meeting will be filed on Western’s profile on SEDAR (www.sedar.com).

In addition, the resolution to approve a consolidation of Western’s common shares was approved by 90.79% of the votes cast at the meeting. The resolution authorized Western to effect a consolidation at a ratio, to be determined by Western’s directors, of between 75 and 120 pre-consolidation shares to one post-consolidation share. The resolution also granted the directors the discretion to determine not to proceed with the consolidation. Western expects that its board will meet to determine whether to proceed with the consolidation, and if it determines to proceed, the final consolidation ratio and the effective date for the consolidation. Western will issue a further news release following these determinations.
